

Huebsch is the answer.

Commercial Homestyle  
Top Load  
Washer

# Commercial Homestyle Top Load Washer Specifications

## Top-notch Top Load

What sets Huebsch top load washers apart from the competition?

### Low water use.

Huebsch top load washers meet current U.S. Department of Energy standards for commercial washers.

### High spin speed.

With an industry-best final spin of 710 RPM, Huebsch top load washers remove more water from loads than many competing models. The end results are reduced drying times and lower utility consumption.

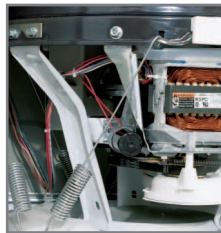

### Rugged by design.

Huebsch washers offer a durable porcelain enamel top, and washtub that will stay looking good for years. They also are built on a sturdy steel base.

### Heavy duty power.

Our top load washer is powered by a heavy duty 1/2 horsepower motor. Washer performance is further fortified by an automatic balance system, which ensures cycles aren't interrupted by unbalanced loads.

## Unmatched Durability

What sets Huebsch apart from other brands in terms of reliability?

### Not just standing behind our equipment, but standing beside you and your business.

Our made-in-America product comes with an industry-leading bond. The entire machine receives Huebsch's standard three-year warranty. In addition, Huebsch has more service representatives in the field than most brands have in their whole organization. Huebsch support is further bolstered by an online component and a help line that takes 10,000 calls per year.

\*Parts only, labor not included. See Huebsch Warranty Bond for specifics.

Model	YWN311
Speeds	1
Cycles	7 Regular - Heavy, Normal, Light, Perm Press - Normal, Light Delicate - Normal, Light
Water Temperatures	3 Hot/Cold Warm/Cold Cold/Cold
