

Wascomat Generation 7

Continuing a long history of excellence.

 **Wascomat**

What's New

Wascomat Generation 7

Washers - New in both Coin and OPL

- Compass Pro microprocessor
- Robust soap box and vent to prevent mold growth
- Even tougher door handle
- More intuitive error code reporting which spells out exactly what's wrong and includes date and time stamp
- USB connection in front
- Rounded top panels
- Stronger control knob
- Rebalance is 30 seconds faster
- Soft Mounts Energy Star Rated up to 45 lb. cap.
- Real time clock

Dryers - New in both Coin and OPL

- Compass Pro microprocessor
- Improved lint screen - best in the industry
- Real time clock
- Door gasket and handle redesign
- Magnetic door catch on TD30x30, same as larger stack
- Axial airflow on single pocket dryers improves dryer time by 12% and reduces energy consumption by 25%

There are 40-year old Wascomats still going strong in laundries today!

Additional Coin features

Compass Pro

Innovative, flexible, and simple to use. One knob does it all: program selection, diagnostics, and custom programming.

- 55 standard programs
- 15 custom programs and cycle names
- 18 languages available
- USB in coin box, easy to customize programs
- Real Time Clock for time of day pricing, happy hour pricing and promotions
- Larger and more secure coin box
- More detailed user statistics and programability
- New card reader plate, easy install, more attractive
- New universal adapter plate with one hole and prepunched holes for main suppliers. Allows a broader choice of payments and is simple to install.

Additional OPL features

Compass Pro

Innovative, flexible, and simple to use. One knob does it all: program selection, diagnostics, and custom programming.

- 55 standard programs
- 15 custom programs and cycle names
- CMIS compatible
- 18 languages available
- USB on front, easily accessible
- Real Time Clock for automatic start, date and time stamp of machine history
